Malaysia's Journey towards a Greener Future

The Malaysian government is committed to driving the EV industry forward and supporting the development of related technologies to achieve the national target of 15% of the total industry volume for EVs and hybrids by 2030. The country aims to install 10,000 EV charging points by 2025 through the Low Carbon Mobility Blueprint, with up to 900 charging points at present. The initiatives and commitments towards e-mobility in Malaysia signify the country's increasing enthusiasm for sustainable transportation.

The E-Mobility Asia (EMA 2023) which will be held on 22 - 24 November 2023 in Kuala Lumpur Convention Centre will bring together businesses and industry players in the EV industry to showcase their latest innovations, learn about emerging trends, collaborate, and network. By participating in EMA 2023, businesses can promote e-mobility in Malaysia and beyond.

Event Highlights of EMA 2023

1. Promotes green transportation
2. Supports the growth in e-mobility products, services and technologies
3. ASEAN EV industry leaders to converge in Kuala Lumpur
4. EMA 2023 conference features top E-Mobility leaders and experts

Uncover the best business opportunities at EMA 2023

Book now!

There are collaborations and partnerships between public and private sectors are crucial for promoting the adoption of E-Mobility in Malaysia. For instance, TNB has allocated RM 90 million to build EV charging stations and welcomes the opportunity to partner with the Malaysian government and industry to support EV adoption.
