EMA Opens Next Month!

Exciting News! We're just one month away from E-Mobility Asia (EMA) 2023. EMA is all set to showcase the latest innovations, delve into industry insights, and foster connections within the electric vehicles (EV) sector. The event offers a dynamic platform to exhibit state-of-the-art EV technologies, groundbreaking automotive innovations, and the latest in charging infrastructure. EMA is also co-located with Sustainability Environment Asia (SEA) 2023! There are numerous programmes ahead at EMA 2023 for visitors to have a fruitful experience and make connections.

Mark your calendar and be sure to visit EMA to witness the amazing opportunities that await you!

The 3-day Event Highlights:

- 1 Innovative Exhibitors Showcase
- 2 Diverse EV Conference Topics
- 3 Key Stakeholders Meeting
- 4 Business Matching Opportunities

Take the Lead in the EV Revolution Now!

"Embark on a journey into the world of E-Mobility innovations and insights at E-Mobility Asia (EMA) 2023, where your innovations take the spotlight alongside Malaysia's industry frontrunners. TEEAM, committed to ensuring and promoting the orderly growth and development of the electrical and electronics industries, aligns seamlessly with the goals of EMA. Together, we propel success within the sector and shape its promising future."

Ir. Chang Yew Cheong
President
The Electrical and Electronics Association of
Malaysia (TEEAM)
