

Catalysing EV insights at E-Mobility Asia (EMA) 2023

Day 2 of the E-Mobility Asia (EMA) Exhibition and Conference has brought a wealth of valuable insights into the dynamic world of electric vehicles (EVs) and business opportunities. With the EV industry still relatively new in the market, EMA provide numerous programmes and electromobility offerings to provide visitors, buyers, and businesses with a deeper understanding of the EV landscape.

The Business Matching session, organised by the Malaysia Automotive, Robotics, and IoT Institute (MARii), has been instrumental in connecting our participating companies with key players within the EV industry. Meanwhile, the exhibition has attracted many visitors who are eager to explore innovative showcases, each offering a glimpse into the future of electric mobility.

EMA Exhibition Highlights

Tomorrow is the last day of EMA 2023!

EMA Day 2 Show Highlights

EMA Conference: Day 2

We would also like to express our gratitude to the speakers and delegates for their active participation in the EMA Conference. We hope you have gained valuable knowledge from the conference and look forward to welcoming you again in the future.

Technical Seminars at Pocket Talk 2, Hall 5

Technical Seminars by Nihon Denkei (M) Sdn Bhd, Innovative Green Power, Seel Electronic & Engineering Sdn Bhd, Emerald Auto Parts Sdn Bhd and EMoovit Technology Sdn Bhd

Innovative Green Power (IGP) is the sole provider with in-house capabilities for comprehensive EV charging infrastructure systems. Their portfolio includes a diverse range of AC Chargers, ranging from portable systems to Wallbox types up to 22kW, and DC Charging Systems, including standard panel type and split type from 20kW DC up to 480kW DC.

Come and visit IGP at booth #P503 tomorrow as it is the last day of EMA 2023!

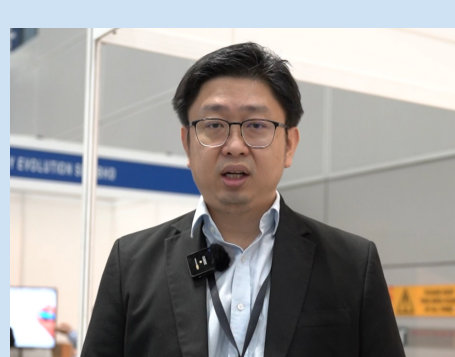

Mr Krisda Utamote
President
Electric Vehicle Association Of Thailand (EVAT)

"This event has been wonderful, and we have felt the enthusiasm of the audience both during the conference and at the exhibition. The interesting discussions between speakers and delegates from across ASEAN have made this a standout event. I believe we can expect more of such good events in the future."

Ms Claire Featherstone
Head of Corporate and Enterprise Practices
Maxis Broadband Sdn Bhd

"I am happy to gain insights into the EV industry at E-Mobility Asia and to showcase Maxis solutions and products at our booth."

Mr Alvin Wong
Chief Executive Officer (CEO)
Innovative Green Power

"Through our participation in this event, we aim to connect with key industry players and present our products and services to a wider audience."

Wong Ting Leong
Manager - Service (Service Department, Sales & Marketing Division)
Denso Malaysia Sdn Bhd

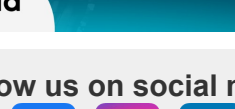

"We seek to enhance the visibility of our recently launched products, and this platform serves as an ideal avenue to achieve that goal."

What's Happening Tomorrow?

Join the Malaysia EV Ecosystem Skills Conference: Empowering Talent Through Technical and Vocational Education and Training (TVET) at the Sapphire Stage in Hall 5. The conference will centre around the pivotal role of TVET in Malaysia.

Admission is free for all attendees, and be sure to RSVP!
