Discover the Latest EV Solutions at EMA 2024

EMA Show Highlights - Day 2

The excitement continues on Day 2 of EMA with a showcase of cutting-edge innovations from leading battery manufacturers, charging infrastructure and solution providers. Exhibitors from Amphenol, Grasen, Hioki Singapore, JuiceUP EV, Nichom Go, Network EV, PyroX, YBS International, and more are unveiling their latest advancements, offering visitors a deep dive into the future of e-mobility.

Visitors also had the opportunity to attend a range of free technical seminars, including Grasen's Commitment to the Southeast Asian EV Charger Market and The Transition to EV Forklifts: Navigating the Road to a Sustainable Future with EVs. These sessions provided valuable insights into the fast-evolving world of electric vehicles and charging infrastructure.

Day 2 Highlights

Innovative Showcases by our Exhibitors

EV Conference 2024

Organised by:

Co-Organised by:

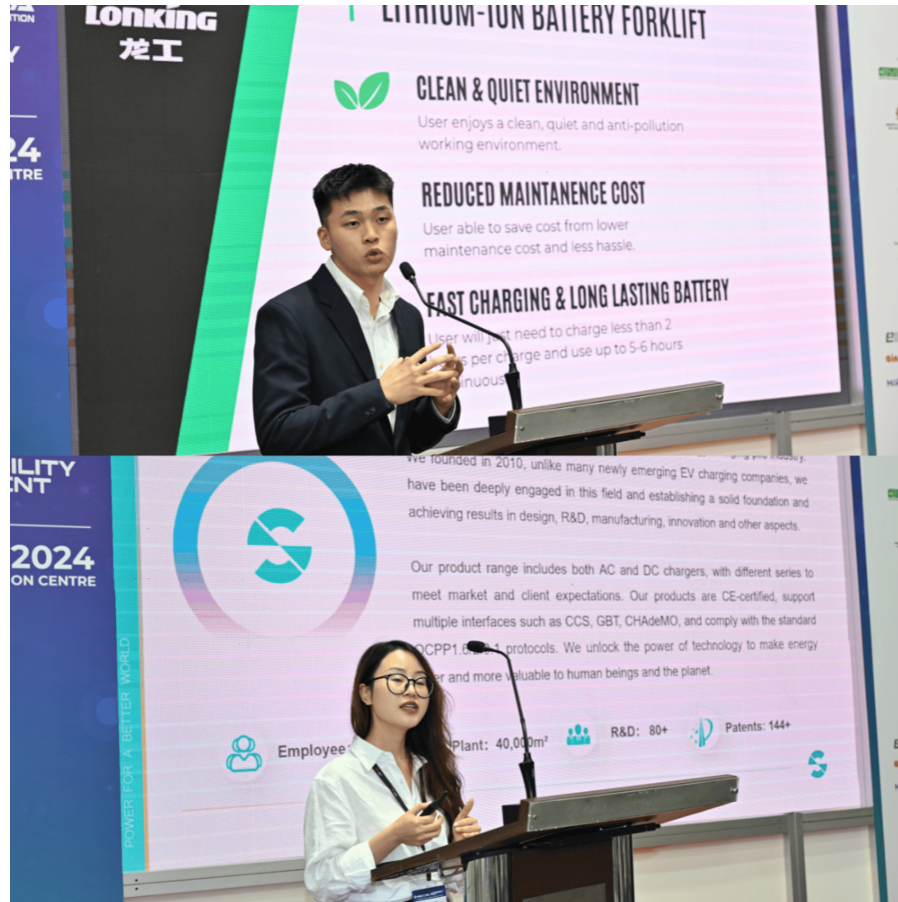

Last day of EV Conference 2024 continuing with more trending topics on EV such as Next-Gen Mobility in Global Electric 2/3 - Wheeler Market, Futuristic Ways and Opportunities in ASEAN's EV Markets, ICE to EV Transition: Enhancing Local Supply Chain Capabilities, Empowering the Workforce and Skills for the Automotive Sectors and Enhancing the Environmental Impact and Safety on EV Ecosystems.

The attendees of the two-day event included government agencies, local and global industry players, research institutions, educational bodies, environmental organisations, and more. Among the international delegates were 15 participants from Northeast India and ASEAN associations.

Thank you to all who attended the EV Conference from 12 – 13 November 2024. We hope you found the event insightful and gained valuable knowledge from both local and international experts on the latest EV trends!

Technical Seminars

F-500 Demo on Battery Fire

Hear What They Say

Supporting Association

Terence Siew
President

Electric Vehicle Association of Singapore (EVAS)

This event is an excellent showcase of technologies and companies involved in the EV ecosystem, aiming to raise awareness of e-mobility adoption.

Exhibitor

Dr Andrew Ng
Chief Technology Officer

Exhibitor

Edmund Lee
Director
Net EV

There is room for improvement in implementing safety measures for EVs. As the EV industry is rapidly advancing, we're here to showcase the latest in safety innovations.

We're still finding that many people hesitate to drive EVs, largely because there's limited charging connectivity in critical areas. By joining EMA, we're working to promote EV charging infrastructure, especially in rural areas.

Today's Highlights

Join us for more insightful, free-to-attend forums covering a range of key EV discussions. Don't miss out on the opportunity to expand your knowledge and engage with industry experts.

e-MOBILITY ASIA | 14 NOVEMBER 2024
LEADING INTERNATIONAL E-MOBILITY EXHIBITION | KUALA LUMPUR CONVENTION CENTRE, MALAYSIA

THE ELECTRICAL AND ELECTRONICS ASSOCIATION OF MALAYSIA (TEAM) FORUM

11.00 AM - 1.00 PM | Forum 2, Hall 4

Moderator
Ir. Chris S.F. Chew
Professional Engineer & TTEAM Past President

Speaker 1
Dahari Mat Siran
Group Advisor of EV Connection Sdn Bhd
Topic 1: "Myths about EV Charging"

Speaker 2
Ir. Alex Looi Tink Huey
General Manager of Malim Consulting Engineers Sdn Bhd
Topic 2: "Renewable Energy and Energy Efficiency in Driving Sustainable E-mobility Solutions"
