## EMA 2024 Sparks Opportunities & Synergy

**E-Mobility Asia (EMA) 2024** concluded today, marking the end of an inspiring three-day event filled with valuable connections and groundbreaking e-mobility solutions. The final day featured dynamic forums where industry leaders engaged in insightful discussions and collaborative exchanges.

Interactive sessions welcomed enthusiastic participation from attendees, including university students keen to explore emerging technologies.

Key sessions included forums hosted by the Electrical and Electronics Association of Malaysia (TEEAM), a Revolutionary Battery Fire Extinguishant, EMA 2024 Pocket Talk Conversations on "Electric Vehicle Ownership Experience: Benefits, Challenges, and What's Next for EVs?" and an EV Safety Training Forum.

The networking night on 13 November 2024 gathered EV industry players to celebrate EMA's successes and foster future partnerships. EMA 2024 also highlighted cutting-edge innovations from EV manufacturers, battery and charging solution providers, and more.

### EMA Show Highlights - Day 3

# Innovative Showcases by our Exhibitors

# The Electrical and Electronics Association of Malaysia (TEEAM) Forum

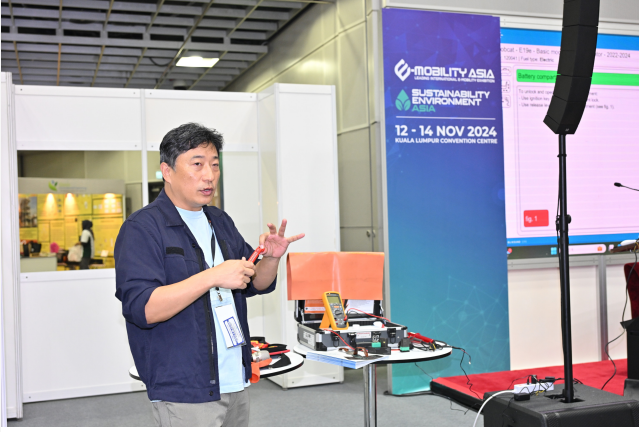

# Revolutionary Battery Fire Extinguishant

# EMA 2024 Pocket Talk Conversations

# EV Safety Training Forum

## Hear What They Say

### Supporting Association

**Ir. Chang Yew Cheong**  
President

**The Electrical and Electronics Association of Malaysia (TEEAM)**

Through our participation in this event, we can bring more of our members and suppliers together to strengthen the industry.

### Exhibitor

**Akif**  
Head Business Development  
**JuiceUP**

Since the first day, we've had quite a number of visitors at our booth, which is great and just what we expected.

### Visitor

**Syairah Mohd Anuar**  
Consultant  
**Aurecon**

I'm looking forward to discovering new technologies at this event that could benefit our project.

Join us next year as EMA transitions into the **Global Automotive & Technology Expo (GATE)**, taking place from **12 – 14 November 2025** at **Kuala Lumpur Convention Centre**. This expanded event will cover essential areas, including before and after-sales segments, EV production, and advanced automotive technologies. More information will be coming soon—stay tuned!

## GLOBAL AUTOMOTIVE AND TECHNOLOGY EXPO 2025

**12 - 14 NOVEMBER 2025**
